To the Heroes of America.  
BY JOSEPH HODMAN DRAKE.

Oh, hail to the heroes whose deeds have restored  
Our honor unscathed once more.  
And the place of their valor triumphantly poured  
On the field that was darkened before.  
For bid from our view was fair Victory's form,  
And the heavens were shrouded in wrath,  
Till the sons of the battle, like stars of the storm,  
Arose on the desolate path.

Then plume thy dark pinion, proud bird of the  
North!  
And sweep from thy home in the skies,  
On the wings of the whirlwind, exultingly forth,  
To the place where their many a foe,  
And joy thee, my country, thy comrades are effaced,  
The pride of the hostler is low,  
And the deep sullied standard by storms is effaced.

It was in the glare of the foe,  
And then, when the battle was over,  
Our banner was raised, and the colors were hoisted,  
Nor darken thy beam though it fall on the slain,  
Who repose on the field, like stars of the storm,  
For the halo that circles the tomb of the brave,  
Its lustre unending maintain,  
The sun of the battle, like stars of the storm,  
The light of their glory remains.

DEARLY ENCOUNTERED WITH A TIGER.—  
In a recent letter from this station (Bhoj  
Kutch) you were informed of the successful  
exploit of a young officer who is attached  
to the First Grenadier Navy Infantry, who,  
single-handed, had killed two panthers.—  
These successes, however, led the youthful  
knight to be more daring than prudent,  
and in his last engagement with a fine pan-  
ther the struggle was the most severe he  
ever heard of; nor was it decided till the  
sportsman, with fire in his men, were driven  
from the field, wounded and bleeding, and  
in consequence of the fact that they were  
victors. There were many opinions and  
stories as to the arrangement of the forces be-  
fore the panther's den, but from all I can  
learn the entire party, about eight or ten  
persons, drew up before the cave, instead of  
selecting the careful position of the spot, and  
after pelting in stones and endeavoring to  
add to the comfort of their friend inside by  
"smoking him out," he did consent to  
show himself, and some very ugly teeth, too.  
With a hop, step and a jump, and a "Goo,  
hoo," he was in the center of the beaters at  
about one hundred, and vaulting from back  
to back, biting each in succession, giving  
grapes with his white snapping jaws, he  
avenged the death of his comrades by the  
infliction of awful wounds. The youthful  
Nimrod fired once or twice, but though he  
distinctly heard the "thud" and felt sure that  
daylight had been in the den, the panther  
hid of the now infuriated brute, the pan-  
ther did not yield, but fastening on one of  
the beaters, rolled with him, fixing his teeth  
firmly in the man's shoulders.

It was an exciting moment. The beater  
had drawn his knife, and was freeing his  
right arm to deal the "drawing out." The  
sportsman had leveled his rifle and was over-  
anxious and excited in his fire; he fired,  
missed the panther, and bit the beater on the  
point of the elbow. The sword fell from the  
man's hand, and the man from the panther's  
jaws. The animal turned round on his foe,  
who held up his unloaded rifle in his hand,  
but was arrested in his charge by a dooly  
walk, whom he wounded. Overcome  
by the agility of the fierce quadruped, a gen-  
eral and precipitate bolt alone remained for  
safety, and in the rush of a fight the  
quarrelsome shikaree fell over a precipice and  
severely hurt himself, and was unable to have  
passed from the jaws of the panther to the  
care of the medico. In my evening walk I  
met one or two of the men who were re-  
turning, much cut and bleeding.

A dooly was sent out to bring in the  
severely wounded beater, who were sent to  
hospital. It is strange how close to camp  
these panthers come; this affair occurred  
only three or four miles off, if so much. As  
might be expected, the excitement of the  
war was at the highest pitch. The panther  
had fought a royal tiger's battle, and had taught  
a lesson to those who say "it is only a pan-  
ther." These miniature tigers are even  
more dangerous than their giant species.—  
Accordingly, a most distinguished party  
having secured the services of one to whom  
might be entrusted the delicate mission of  
just pulling the panther's whiskers, they  
proceeded to the spot. But such "diplo-  
matic overtures" were not necessary. They  
found the panther "stretched on the yellow  
clay," and all returned to camp most fairly  
sated. The skin was sent into the camp to  
the slayer, who had a good laugh in his  
sleeve at the expense of those who so kindly  
acted as "retrievers," and brought in his lost  
game.—Times of India.

EIGHTY THOUSAND DOLLARS SAVED BY  
A SHARP MAN.—Before martial law  
was established in St. Joseph, Mo., a gang  
of scoundrels on the loose had their eye upon  
\$80,000 in gold, in the express office, and  
were preparing to pounce upon it, when the  
agent in charge of the money adopted a plan  
to deceive him. The Omaha Nebraska  
says:

From the cellar of the Omaha, without a  
lock, was brought forth. From the old  
clothes inside one of the messengers quick-  
ly seized a suit more complete with the  
appearance of the trunk than the one he  
usually wore. The treasure was then pack-  
ed snugly inside, and an old piece of paper  
tied carelessly around it, supplied the place  
of the lock and held the lid securely down.  
Tied down the street as fast as his  
merry boots would let him, our messenger,  
disappeared effectually as an anxious eld-  
erly man, secured a drayman, and telling him  
that times were getting rather hot in St. Jo-  
seph, he was commissioned to go to Elwood, and  
that he had some baggage at the Express  
office he would like to have taken over.

The drayman went with him, and after a  
little parlaying and begging the Express  
agent to let the trunk go without the pay-  
ment of a small charge alleged to be upon it,  
and while the drayman was turned,  
made fun to the drayman of his appearance  
and of the trunk, and finally helped the  
owner load it, putting off the drayman, who  
was anxious to help, with, "Never mind, it's  
no trouble." Walking down the middle of  
the street, behind the dray, our disguised  
messenger soon reached the river, and in a  
few minutes more was safely in Elwood.—  
And thus \$80,000 in gold, hard gold, pass-  
ed under the very eyes of the rebels at St.  
Joseph. Joined by another messenger,  
equally hidden in appearance, a team was  
hired to bring them to Nebraska City, and  
from thence by stage they came to Omaha,  
bringing the same old trunk, with its load of  
treasure, strapped on behind as if it con-  
tained nothing but old clothes.

From the New York Commercial.  
A SINGULAR AFFAIR OF HONOR.  
There arrived by the Edinburgh, on Sat-  
urday, from Europe, Captain C. Lee Moore,  
of Saco, Maine, late United States astron-  
omer, &c., who is yet the sufferer from the  
results of a singular and not unromantic af-  
fair of honor, which was fought on the Seine,  
near Paris, on the 19th of August last.

The particulars of the affair are as follows:  
Capt. Moore, although a South Carolinian  
by birth, is a strong and devoted adherent  
to the cause of the Union, and during his  
journey through France made no hesitation  
in expressing his sympathies and the feelings  
for the United States Government, and his  
abhorrence of the Southern traitors and re-  
bels. Hon. F. G. Pasquier, of Virginia, meet-  
ing the Captain at a hotel in Paris, and  
knowing his parentage, reproached him in  
obnoxious terms as a renegade from his na-  
tive State.

He charged him with being a traitor to the  
South, and a man of no honor because he  
abandoned her when she needed all the ser-  
vices of her sons, particularly her seamen  
and navigators. He took occasion in his vi-  
tuperation, also, to cast imputations upon the  
character of Northern ladies, which, as the  
Captain had married a New England  
wife, was resented by a tremendous blow,  
entirely doubling up the chivalric Virginian  
and laying him in ordinary for the remainder  
of the evening.

France was taken in charge of by his  
friends, and when he had gathered his scat-  
tered faculties, sent a challenge to the Cap-  
tain by the hand of his friend Mons. Stepha-  
ne. The challenge received a prompt re-  
sponse, and not twenty-four hours from the  
first meeting of the combatants they stood  
on the banks of the Seine, prepared to take  
each other's lives. The weapons selected  
were Derringer pistols, the distance ten  
paces, the combatants on foot, and when the  
signal was given, the fight was on. The  
boastful and coarse in his manner and re-  
marks. The Captain was calm, though de-  
termined.

All being ready, Capt. Moore handed two  
letters to his second, one addressed to the  
American Consul at Liverpool, and the other  
to his wife at Saco, Maine, to be delivered in  
case he fell. He then removed his coat,  
and the combatants drew the hair from their  
heads, and the fight was on. The latter's  
boastful and coarse in his manner and re-  
marks. The Captain was calm, though de-  
termined. The fight was on. The latter's  
boastful and coarse in his manner and re-  
marks. The Captain was calm, though de-  
termined.

Before giving the signal for the fight, the  
Captain, under an acknowledgment of his  
base conduct, and solicited the latter's  
forgiveness, which was freely granted. The  
Captain, escaping from the French police,  
took refuge at Liverpool, where he was con-  
soled by the American shipper of the  
war, and sent on to New York by the Edin-  
burgh.

He is now at the Stevens House in this  
city, where he lies in a very critical condi-  
tion. The bill of his adversary passing im-  
mediately under the chin, made a severe  
wound on the brain, which was more dan-  
gerous from the fact that the Captain had re-  
ceived a severe wound in the head in the  
Mexican war. He bleeds frequently from  
the ears, and remains in a condition con-  
stantly threatening death.

A FORTUNE-HUNTING PARSON.—The  
Rev. Mr. James, who stands so high in a  
portion of English religious circles, seems to  
have been a regular fortune-hunter. Says  
the New York Independent:

The Rev. Mr. James was twice married,  
and in both instances he made a success-  
ful match. The first he describes as a "dear,  
eminent woman, who had few personal charms,  
and 'sprightliness or vivacity.' She was  
older than himself, but had money and a  
good social position. He thus records his  
courtship: "I had been one day most ear-  
nestly praying for divine direction in this im-  
portant step, and during prayer Francis  
Smith occurred, with such force upon my mind  
that I considered it an indication of Provi-  
dence that my attention should be directed to  
her." And in view of his success, he cau-  
tiously the young minister against marrying  
a "frivolous, weak, moneyless, thriftless wo-  
man."

Three years after the death of this truly  
excellent person, Mr. James made another  
choice equally providential. Here is his  
record of the affair:

By God's good Providence I was directed  
to one in every way worthy to be the suc-  
cessor of my first wife, and this is saying  
much. The widow of Mr. Benjamin Neal,  
of St. Paul's Church-yard, had been sought  
by many, but she was reserved for me. \* \*  
In the possession of property (subject to some  
charitable bequests, which she liberally con-  
tributed) to the amount of £20,000. \* \* \*  
Possessed of a masculine understanding,  
great public spirit, equal liberality, and emi-  
nently prudent, she was well fitted for the  
station into which Providence now brought  
her. She had her failings; but they were  
very light and small compared with her many  
and eminent virtues.

The Independent thinks "that these re-  
velations of his biographer are highly in-  
dicative of a departed saint, and may fa-  
cilitate the influence of a character of sub-

stantial excellence." It adds: "But the mis-  
chief is done. The critics of the Saturday  
Evening Post were kept upon the scent, and these  
revelations of Mr. James' domestic life are  
the sport of merciless sarcasm. We can  
only hold up the example as a warning to  
the confiding writers of auto-biographies,  
and to their future editors."

How BOMB-SHELLS ARE MADE.—The  
manufacture of bomb shells is very interest-  
ing. The shell is first filled with old-fash-  
ioned round leaden bullets; melted sulphur  
is then poured in to fill up the interstices  
and bind the bullets in one solid mass; the  
shell is then put into a kind of lathe, and a  
cylindrical hole of the exact size of the ori-  
fice of the shell is bored through the bullets  
and sulphur. This cavity is filled with pow-  
der even with the interior edge of the ori-  
fice, a 6-inch shell of the kind here de-  
scribed holding about half a pound. The fuse  
inserted into the orifice is a recent Belgian in-  
vention, made of pewter, and resembles the screw-  
cap used for the patent fire-arms. An ex-  
amination of this powder cap shows, however,  
that it is made of two hollow discs of metal  
screwed together, and filled with meal pow-  
der. A number of fine holes are drilled in  
the lower disc, while the outer disc is entire  
and marked with figures in the circles, 1, 2,  
3, 4. In this state the shell is water proof.  
When taken for use, the gunner, by means of  
a small steel instrument, scoops out a por-  
tion of the outer soft metal surface, and lays  
bare the charge of composition powder be-  
hind the shell. If the shell is desired to ex-  
plode on the figure 1; if in two seconds,  
on the figure 2, and so on; the idea being  
that the shells of this description shall first  
strike the object aimed at and do execution  
as a ball, and then explode, sending the bul-  
lets forward. If from another cannon, lo-  
cated at the point where the flight of the shell  
is arrested. Large shells of eight or ten  
inches are filled with powder only, and  
bursting, do execution by means of their  
fragments. These large shells are generally  
fired by means of a fuse of meal powder, ex-  
tending through a brass plug, screwed into  
the mouth of the shell. In both cases the  
fuse is fired by the ignition of the charge in  
the gun.

NEW GOODS.  
FALL & WINTER  
IMPORTATION FOR 1861.  
We are now in receipt of our stock of  
Fall and Winter Goods!  
Embracing all the newest and most approved  
styles.  
One of the firm selected our Goods in New York  
and Philadelphia expressly for this market, and  
having bought for cash, we are prepared to offer  
superior inducements to those not asking exten-  
ded credit.  
In times like these it is impossible to give a  
long credit and we hope no one will ask it.  
It is useless to attempt an enumeration of the  
articles in our stock, as they are too numerous to  
allow it, and our assortment is too well known to  
require it.  
Hoping for the pleasure of seeing our friends  
and customers before long.  
We remain respectfully,
